## CUB & CUB LO-BOY LOADER

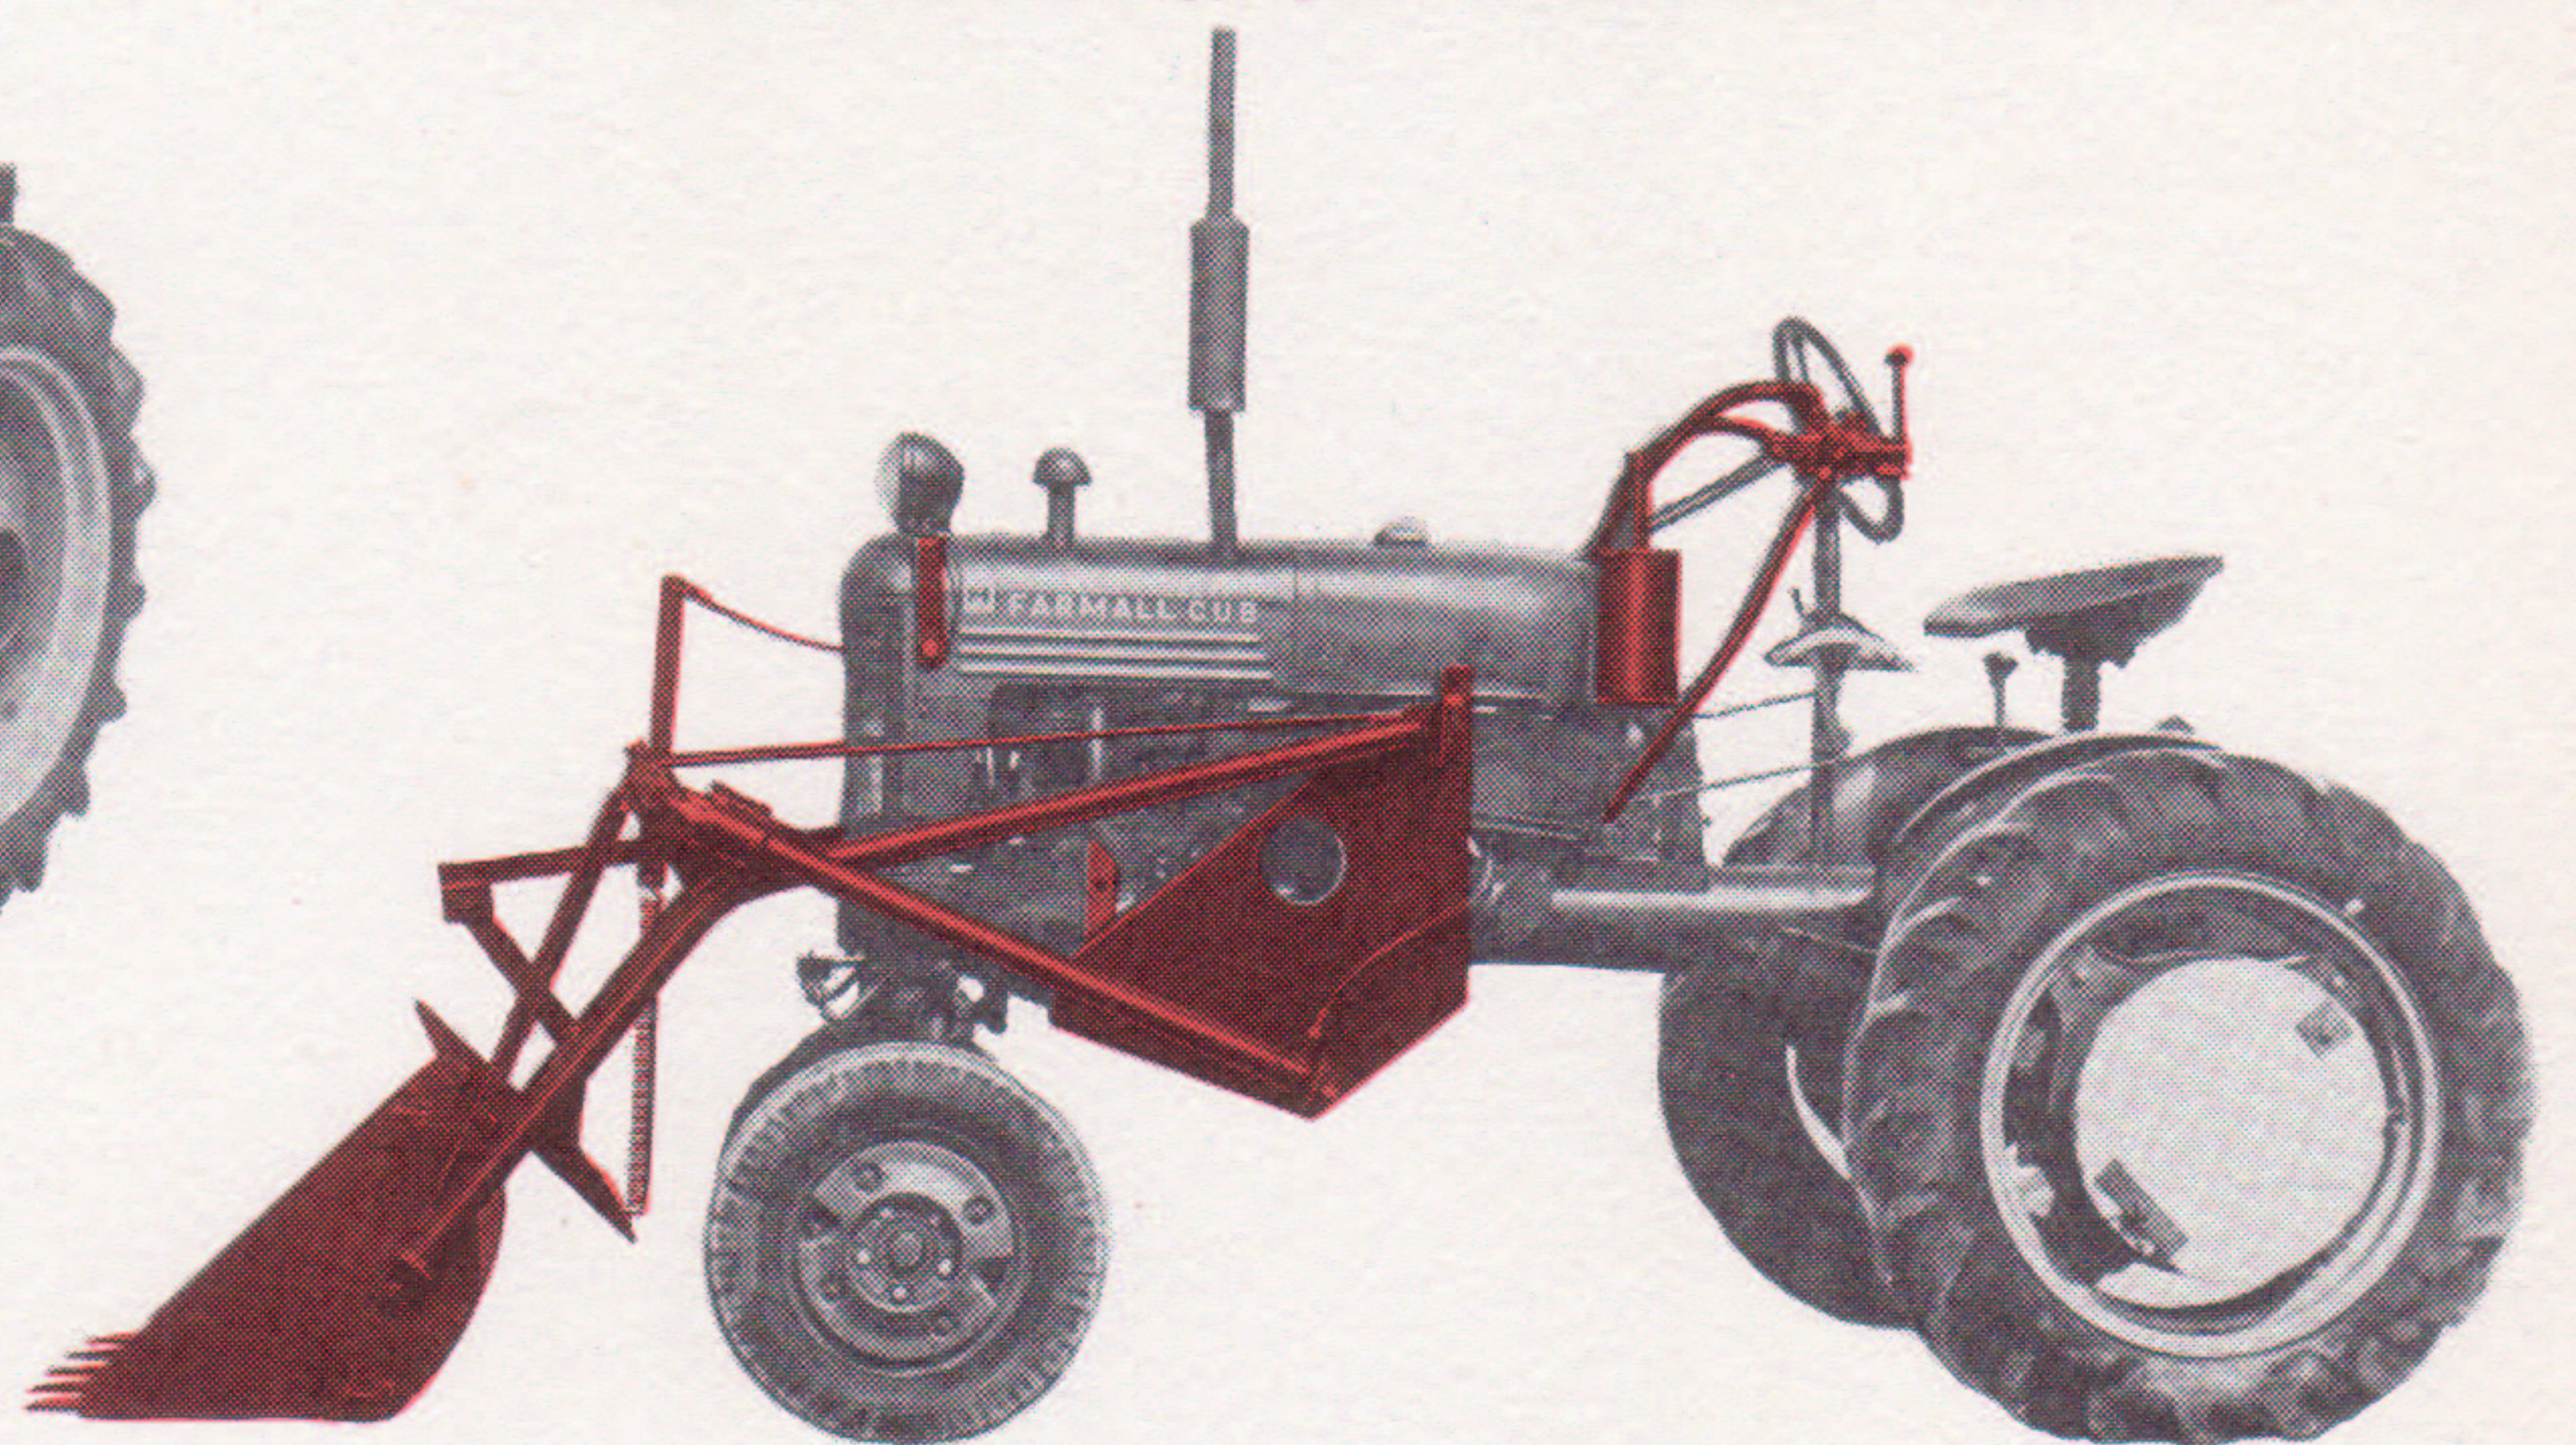

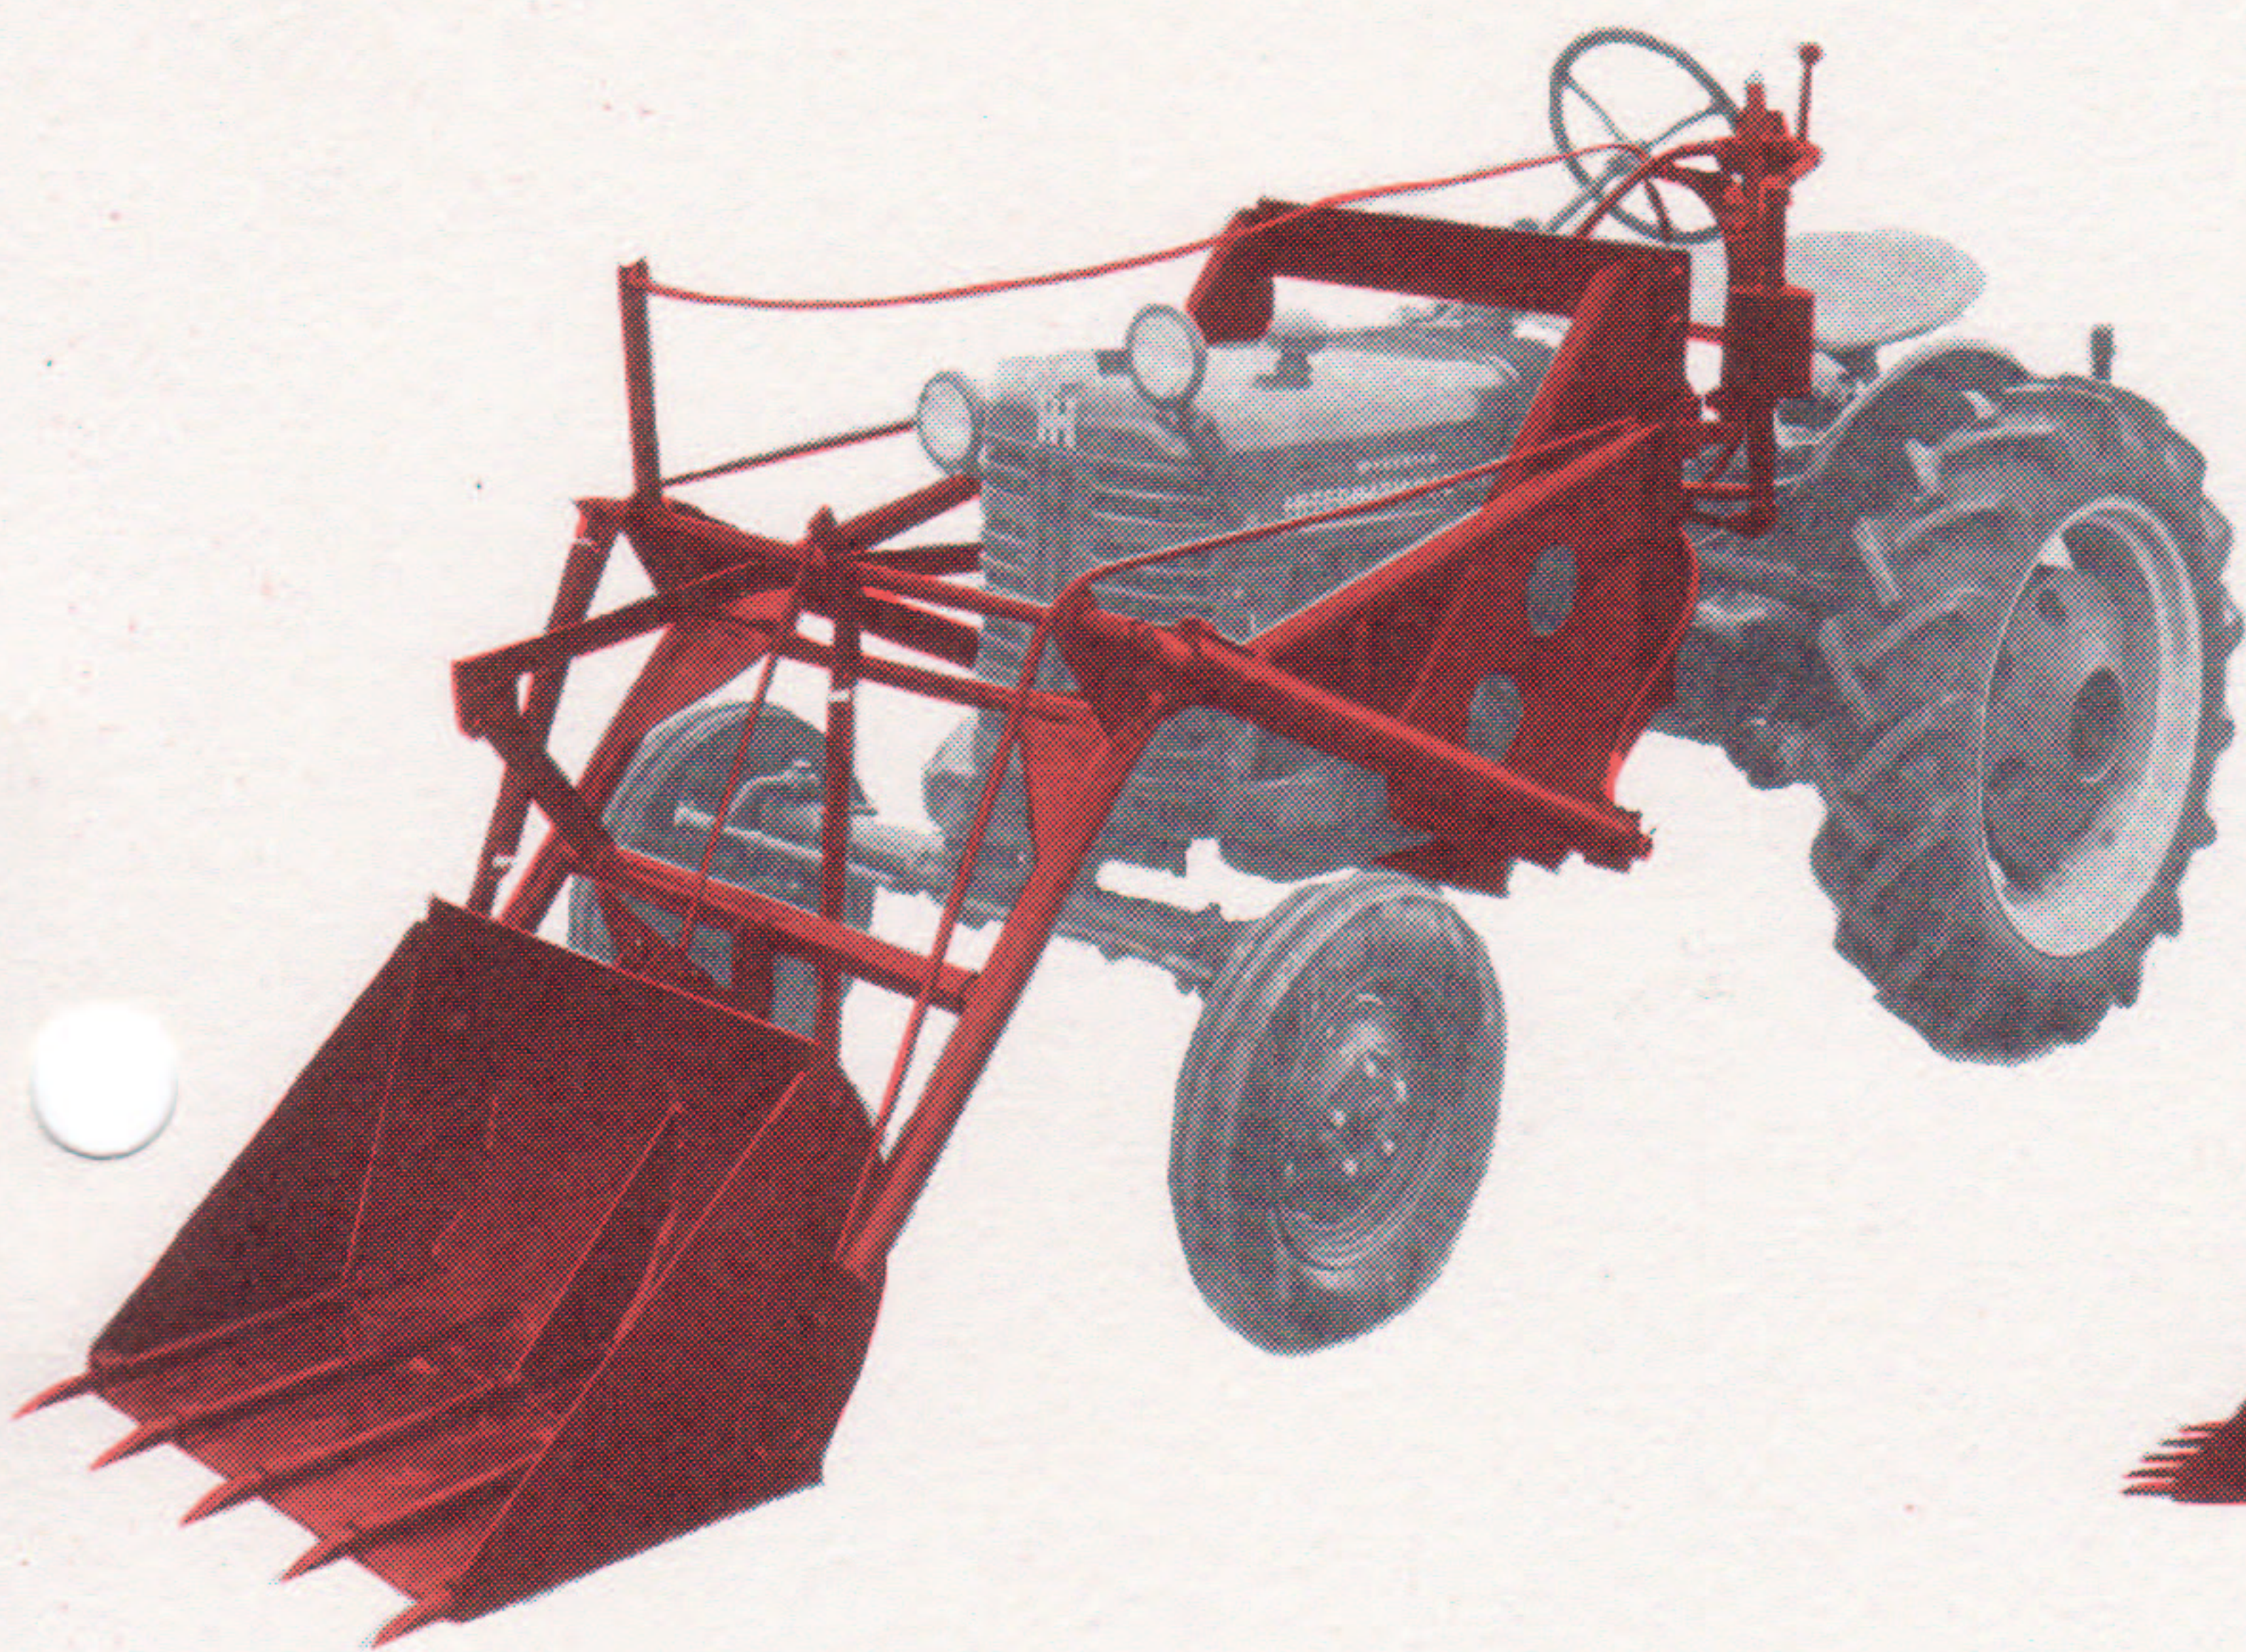

Engineered, Designed  
and Built Especially for

### the FARMALL CUB & CUB LO-BOY TRACTOR

### FARM TESTED AND PROVED

SHIPPED  
COMPLETELY  
ASSEMBLED

*Ready to Mount!*

### Operates Off Tractor Hydraulic System

Farm implement engineers cooperating with farmers throughout the country designed and tested this unit to meet the most exacting needs of the Farmall Cub Tractor owner. It has undergone the most gruelling tests to satisfy the manufacturer that it comes up to the high standards set for Henderson-built equipment.

Standard equipment includes the basic loader and all necessary mounting attachments; complete hydraulic controls consisting of piping, connections, control valve and loader hydraulic oil reservoir.

Instructions for attaching and operating are included with each unit. Quickly, securely installed to give trouble-free service. Handle more jobs, faster, easier, at less cost with a Henderson field-tested Loader.

*Plus*

- 100% VISIBILITY. No part of loader is higher than tractor when loader is down.
- Lets operator drive anywhere tractor will go.
- Bucket leveler keeps bucket in balance at all times.
